**Re: *EX PARTE PRESENTATION: Intercarrier Compensation for ISP-Bound Traffic, CC Docket No. 99-68 and Developing a Unified Intercarrier Compensation Regime, CC Docket No. 01-92***

Dear Ms. Dortch:

On November 6, 2009, Charles McKee and Michael Fingerhut of Sprint Nextel Corporation ("Sprint") and Christopher Wright of Wiltshire & Grannis LLP, Sprint's outside counsel, met with Marcus Maher, Douglas Slotten and Jennifer Prime of the FCC's Wireline Competition Bureau. The meeting was held at the FCC staff's request to discuss Sprint's current disputes with certain incumbent local exchange carriers ("ILECs") regarding the applicability of interstate and intrastate access charges to non-local VoIP-originated traffic that Sprint terminates with such ILECs. During the discussion, Sprint reiterated its position, as set forth in its pleadings in the above-referenced dockets, that the current intercarrier compensation regime is broken and in desperate need of reform.

If you have any questions, please contact me.

Respectfully submitted,
